

ERASMUS SONG _ MATHS ROUTES AROUND EUROPE. March 2021

March has come we're saying hello
To you partners there's plenty to show
Come along and join us
Don't be shy and mingle
We'll definitely have some fun!

Hand in hand friends will become
Together we will be as one
Views, ideas and feelings
We're pretty much the same
Friendship has no name

There is no time like this...!

(Chorus)

It is so nice to see teachers and teens all in harmony
Young and free
Eager and sweet
Such diversity, oh yeah!
We can laugh, we can learn
Having the time of our lives uh uh
See this group
Watch us sing
We're an Erasmus team!

Polish are here to stay
The English never go away
Spanish like to party!
Italians like to sing
Croatians we'll do anything!
It's such a pleasure to see you guys

We greet you with big bright eyes

Maths is fantastic

Challenges are great

It's time to celebrate

Come on let's sing along...!

Maths
routes
around
Europe
